# CERTIFICATE

(translation: only for information)

The present document confirms that the material:

**HDPE VESTOLEN A 5061R 10000 black  
produced by SABIC Polyolefine GmbH  
Pawiker Strasse, 30  
DE - 45896 GELSENKIRCHEN**

have been submitted to approval by Belgaqua  
by the company SABIC Polyolefine GmbH

and have been declared conform to the requirements of the approval  
procedure for materials in contact with drinking water and water  
serving for the the production production of drinking water  
"HYDROCHECK", approved by the Board of Management of  
Belgaqua on December 13, 2004.

This certificate has been delivered on the basis of the test report  
(ref. SWDE/Hydrocheck028) established according to the evaluation  
methods defined in the HYDROCHECK procedure.

These documents may only be communicated to third parties or  
reproduced in its integral version.

The approval of the material is valid for undetermined duration,  
starting on the date of signature and for materials which are identical  
to those mentioned in the present certificate. Its validity will be  
confirmed by mentioning its references in the Listing of approved  
materials in contact with water, issued yearly by BELGAQUA.

Established in one original copy in French, September 23, 2005

Chr. LEGROS
